

ENVIRONMENTAL POLICY

Midland Survey Limited has agreed to implement the following environmental policy:

- We will minimise the use of natural resources and lessen the impact on the environment.
- This company plans to meet or exceed all applicable regulations to the environment at all locations. Wherever possible we will purchase non-polluting and energy efficient technologies.
- The company will set its own standards and targets.
- The company will regularly review its environmental processes.
- The company will measure progress against set targets for resource efficiency and pollution reduction.
- The company will also assist suppliers and customers to promote greener products and services if required.
